OBJECTIVE

I am a motivated and resourceful Frontend Developer who is skilled in HTML, CSS, JavaScript, and React. My keen interest in programming and design helps me find creative solutions to technical challenges and develop visually appealing websites. My extensive knowledge of technical standards helps me manage projects efficiently. I have an in-depth understanding of diverse client needs and business methodologies. I am a strategic thinker, consistently making significant contributions and multi-tasking to complete multiple competitive deliverables in a deadline-driven environment. I am Hardworking trustworthy and disciplined.

PROJECTS

Weather App

The weather application was built with Geolocation and APIs that will provide users with real-time weather information, forecasts, and other weather-related data, which can help them make better decisions about their day-to-day activities.

To-do List App

The To-do List project is a web application built with HTML, CSS, and JavaScript.

It records your daily task and to-do lists. You will add a task for a specific time and also edit it and even mark it as complete as per your need. Also, you can simply delete any one of the tasks from the list.

Tea Cozy

This is a fictional tea shop website made with HTML and CSS with flexbox, some responsiveness with media queries.

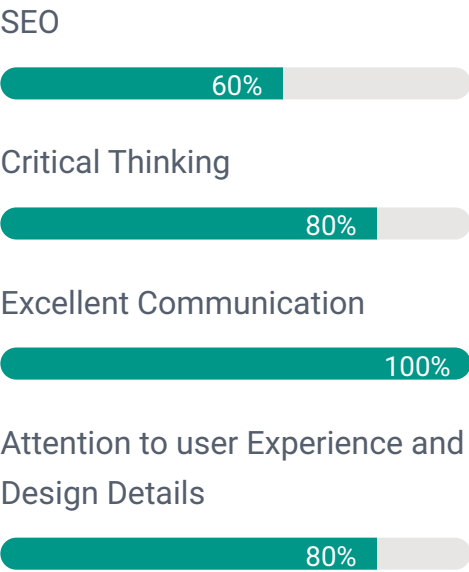

EXPERIENCE

Intern

01/2023 -

Twinku

1. Learned and adapted quickly to new technology and

- software applications.
- 2. Analyzed problems and worked with teams to develop solutions.
 - 3. Develop and maintain responsive web pages using HTML, CSS, and JavaScript.
 - 4. Participate in code reviews and contribute to team discussions on best practices.
